};
```

Topics

Describing a deferred payment

`billingAgreement`

The localized billing agreement the framework displays to the user prior to payment authorization.

`paymentDescription`

A description of the deferred payment.

`freeCancellationDate`

The time zone at the destination location of the payment.

`freeCancellationDateTimeZone`

The time zone at the destination location of the payment.

Setting payment summary items

`deferredBilling`

A dictionary that contains details about the deferred payment.

Managing payment tokens

`managementURL`

A URL that links to a page on your web site where the user can manage the payment method for the deferred payment, including deleting it.

`tokenNotificationURL`

A URL to receive life-cycle notifications for the merchant-specific payment token the system issues for the request, if applicable.

See Also

Apple Pay payment request

`ApplePayPaymentRequest`

A request for payment, which includes information about payment-processing capabilities, the payment amount, and shipping information.
