

[Video Subscriber Account](#) /  / [VSUserAccountManager.AutoSignInToken](#) / authorization

Instance Property

authorization

A state that represents a person's approval of Automatic Sign-In.

iOS 26.0+ | iPadOS 26.0+ | macOS 26.0+ | tvOS 26.0+ | visionOS 26.0+

```
var authorization: VSUserAccountManager.AutoSignInAuthorization { get }
```

Mentioned in

 Signing people in to their media accounts automatically

Discussion

The default value is [VSUserAccountManager.AutoSignInAuthorization.notDetermined](#). The framework updates the value based on a person's answer to the prompt to opt in to Automatic Sign-In (see [requestAutoSignInAuthorization\(\)](#)).
