

[Assignables](#) / AssignableDocumentConfiguration

Protocol

AssignableDocumentConfiguration

A type that specifies the options for an assignable document.

iOS 17.4+ | iPadOS 17.4+ | Mac Catalyst 17.4+ | visionOS

`protocol` AssignableDocumentConfiguration : Hashable

Topics

Configuring a document

`var maxScore: Double?`

An optional maximum score for this assessment. If `nil`, this value will be synthesized from the question data and associated annotations.

Required

`var correctScoreMarkType: AssignableDocument.CorrectMarkType`

The glyph to use for a correct score mark in the assessment.

Required

`var pointsPerBonusScoreMark: Double`

The value of each bonus score mark in the assessment.

Required

`var pointsPerCorrectScoreMark: Double`

The value of each correct score mark in the assessment.

Required

`var pointsPerIncorrectScoreMark: Double`

The value of each incorrect score mark in the assessment.
