

[FinanceKit](#) / [FinanceStore](#) / `accountHistory(since:isMonitoring:)`

Instance Method

accountHistory(since:isMonitoring:)

Returns a list of accounts a person added since a time specified by the provided financial history token.

iOS 17.4+ | iPadOS 17.4+

```
func accountHistory(
    since token: FinanceStore.HistoryToken? = nil,
    isMonitoring: Bool = true
) -> FinanceStore.History<Account>
```

Parameters

token

An optional `HistoryToken`.

isMonitoring

A Boolean value that indicates if the framework should return a `History` that indicates the changes to the accounts over time. Defaults to `true`.

Return Value

A `History` that describes the accounts.

Discussion

Use this method to list and monitor accounts present in a person's Wallet. If provided, the framework uses the `since` history token as a starting point to evaluate which accounts to return.
