Enumeration

vDSP.DCTTransformType

An enumeration that describes the discrete cosine transform types.

iOS 13.0+ | iPadOS 13.0+ | Mac Catalyst | macOS 10.15+ | tvOS 13.0+ | visionOS | watchOS 6.0+

`enum` DCTTransformType

Topics

Discrete Cosine Transform Type Constants

`case` II

A constant that represents a type-II discrete cosine transform.

`case` III

A constant that represents a type-III discrete cosine transform.

`case` IV

A constant that represents a type-IV discrete cosine transform.

Instance Properties

`var` dctType: vDSP_DCT_Type

The vDSP DCT type of this value.
