

[Automatic Assessment...](#) / [AEAssessmentError](#) / AEAssessmentError.Code

## Enumeration

# AEAssessmentError.Code

Error codes that the framework returns if a session fails.

iOS 13.4+ | iPadOS 13.4+ | Mac Catalyst 14.0+ | macOS 10.15.4+

**enum** Code

## Topics

### Possible errors

**case** configurationUpdatesNotSupported

An active session fails to update its configuration because configuration updates are not supported by the current device or platform.

**case** multipleParticipantsNotSupported

A session fails to begin or update with a configuration that contains one or more participant applications because multiple participant configurations are not supported by the device or platform.

**case** unknown

The session encountered an unknown error.

**case** unsupportedPlatform

The feature isn't supported on this platform.
