

[MailKit](#) / `MESSAGE_STATE`

Enumeration

MESSAGE_STATE

The state of a message: sent, unsent, or received.

macOS 12.0+

```
enum MESSAGE_STATE
```

Topics

Determining Message State

`case draft`

A state that indicates the user is composing the message, and hasn't sent it yet.

`case received`

A state that indicates the system has received and stored the message.

`case sending`

A state that indicates the system is in the process of sending the message.

Initializers

```
init?(rawValue: Int)
```
