

Framework

HealthKitUI

Display user interface that enables a person to view and interact with their health data.

iOS 8.0+ | iPadOS 8.0+ | Mac Catalyst 17.0+ | macOS 14.0+ | tvOS 10.0+ | visionOS 1.0+ | watchOS 2.0+

Overview

HealthKitUI defines user interface for the [HealthKit](#) framework.

Topics

Essentials

`class` `HKActivityRingView`

A view that uses the Move, Exercise, and Stand activity rings to display data from a HealthKit activity summary object.

HealthKit

Access and share health and fitness data while maintaining the user's privacy and control.
