

[AppKit](#) / [...](#) / [NSTableView.SelectionHighlightStyle.sourceList](#) **Deprecated**

Case

NSTableView.SelectionHighlightStyle .sourceList **Deprecated**

macOS 10.5–12.0 **Deprecated**

```
case sourceList
```

Deprecated

Set the `NSTableView.style` property to `NSTableViewStyleSourceList` instead.

Discussion

The source list style of `NSTableView`. On 10.5, a light blue gradient is used to highlight selected rows.

Note

When using this style, cell subclasses that implement `drawsBackground` must set the value to `false`. Otherwise, the cells will draw over the tableview's highlighting.
