
[SwiftUI](#) / AccessibilityTechnologies

Structure

AccessibilityTechnologies

Accessibility technologies available to the system.

iOS 15.0+ | iPadOS 15.0+ | Mac Catalyst 15.0+ | macOS 12.0+ | tvOS 15.0+ | visionOS 1.0+ | watchOS 8.0+

```
struct AccessibilityTechnologies
```

Topics

Getting technology types

```
static let switchControl: AccessibilityTechnologies
```

The value that represents a Switch Control, allowing the use of the entire system using controller buttons, a breath-controlled switch or similar hardware.

```
static let voiceOver: AccessibilityTechnologies
```

The value that represents the VoiceOver screen reader, allowing use of the system without seeing the screen visually.

Creating a technology type

```
init()
```

Creates a new accessibility technologies structure with an empty accessibility technology set.
