

[MapKit](#) / [MapItemDetailSelectionAccessoryStyle](#)

Structure

MapItemDetailSelectionAccessoryStyle

The map item detail selection accessory style.

MapKit | SwiftUI | iOS 18.0+ | iPadOS 18.0+ | Mac Catalyst | macOS 15.0+ | visionOS 2.0+

```
struct MapItemDetailSelectionAccessoryStyle
```

Topics

Accessory styles

`static var automatic: MapItemDetailSelectionAccessoryStyle`

A value that allows the framework to choose an appropriate callout style automatically.

`static var callout: MapItemDetailSelectionAccessoryStyle`

The accessory, shown as an annotation callout on the map.

`static var caption: MapItemDetailSelectionAccessoryStyle`

An “Open in Apple Maps” link below the content’s label.

`static var sheet: MapItemDetailSelectionAccessoryStyle`

The map item detail sheet.

Callout styles

`struct CalloutStyle`

The style to use for callout content.

```
static var automatic: MapItemDetailSelectionAccessoryStyle.CalloutStyle  
A value that allows the framework to choose an appropriate callout style automatically.
```

```
static var compact: MapItemDetailSelectionAccessoryStyle.CalloutStyle  
A compact, space-saving callout style.
```

```
static var full: MapItemDetailSelectionAccessoryStyle.CalloutStyle  
A rich, detailed callout style that is suitable for large map views.
```

Type Methods

```
static func callout(MapItemDetailSelectionAccessoryStyle.CalloutStyle)  
-> MapItemDetailSelectionAccessoryStyle  
Presents the accessory as an annotation callout on the map.
```

See Also

Place information

```
func mapItemDetailSelectionAccessory(MapItemDetailSelectionAccessory  
Style?) -> some MapContent
```

Specifies the selection accessory to display for the selected map item content.

```
static func callout(MapItemDetailSelectionAccessoryStyle.CalloutStyle)  
-> MapItemDetailSelectionAccessoryStyle
```

Presents the accessory as an annotation callout on the map.
