Object

# MerchantTokenUsageDataAvailabilityNotificationRequest

The data for the merchant token usage data availability notification request.

Apple Pay Merchant Token Management API 1.0.12+

```
object MerchantTokenUsageDataAvailabilityNotificationRequest
```

## Properties

**merchantToken**

**Identifier**

string

**(Required)** The unique identifier of the merchant token.

Maximum length: 64

**merchantTokenUsage**

**Metadata**

[MerchantTokenUsage](#)

**Metadata**

**(Required)** Metadata that's encrypted using the merchantTokenPublicKey.

Key.

## Discussion

Use this API to notify Apple servers that the user's device can retrieve merchant token usage information. The request includes metadata about encryption and where to retrieve the usage information.

The merchantPublicKey passed in the request needs to be a P-384 public key.
