

[Wi-Fi Aware](#) / [WAPerformanceMode](#) / `WAPerformanceMode.realtime`

Case

WAPerformanceMode.realtime

A mode that prioritizes latency at the expense of throughput, power, and other concurrent Wi-Fi use cases and devices.

iOS 26.0+ | iPadOS 26.0+

```
case realtime
```

See Also

Setting performance modes

```
case bulk
```

A mode that prioritizes throughput, power, and support for other concurrent Wi-Fi use cases and devices.
