[Accelerate](#) / [vDSP](#) / Matrix and submatrix copying functions

API Collection

Matrix and submatrix copying functions

Copy the contents of a submatrix to another submatrix.

Topics

Copying matrices and submatrices

`vDSP_mmov`

Copies the contents of a single-precision submatrix to another single-precision matrix.

`vDSP_mmovD`

Copies the contents of a double-precision submatrix to another double-precision matrix.

See Also

Matrix operations

☰ Multiplication

Multiply vectors that contain real or complex values.

☰ Transposition

Transpose vectors that contain real values.
