App Store Connect API Release Notes

Learn about new features and updates in the App Store Connect API.

Overview

The App Store Connect API is a REST API that enables the automation of actions you take in App Store Connect. Download the latest [OpenAPI specification](#).

Topics

Versions

- 📄 App Store Connect API 4.1 release notes
Update your server-side code to use new features, and test your code against API changes.
- 📄 App Store Connect API 4.0 release notes
Update your server-side code to use new features, and test your code against API changes.
- 📄 App Store Connect API 3.8 release notes
Update your server-side code to use new features, and test your code against API changes.
- 📄 App Store Connect API 3.7 release notes
Update your server-side code to use new features, and test your code against API changes.
- 📄 App Store Connect API 3.6 release notes
Update your server-side code to use new features, and test your code against API changes.
- 📄 App Store Connect API 3.5 release notes
Update your server-side code to use new features, and test your code against API changes.

-  App Store Connect API 3.4 release notes
Update your server-side code to use new features, and test your code against API changes.
-  App Store Connect API 3.3 release notes
Update your server-side code to use new features, and test your code against API changes.
-  App Store Connect API 3.2 release notes
Update your server-side code to use new features, and test your code against API changes.
-  App Store Connect API 3.1 release notes
Update your server-side code to use new features, and test your code against API changes.
-  App Store Connect API 3.0 release notes
Update your server-side code to use new features, and test your code against API changes.
-  App Store Connect API 2.4 release notes
Update your server-side code to use new features, and test your code against API changes.
-  App Store Connect API 2.3 release notes
Update your server-side code to use new features, and test your code against API changes.
-  App Store Connect API 2.2 release notes
Update your server-side code to use new features, and test your code against API changes.
-  App Store Connect API 2.1 release notes
Update your server-side code to use new features, and test your code against API changes.
-  App Store Connect API 2.0 release notes
Update your server-side code to use new features, and test your code against API changes.
-  App Store Connect API 1.8 release notes
Update your server-side code to use new features, and test your code against API changes.
-  App Store Connect API 1.7 release notes
Update your server-side code to use new features, and test your code against API changes.
-  App Store Connect API 1.6 release notes
Update your server-side code to use new features, and test your code against API changes.
-  App Store Connect API 1.5 release notes
Update your server-side code to use new features, and test your code against API changes.

- 📄 App Store Connect API 1.4 release notes
Update your server-side code to use new features, and test your code against API changes.
 - 📄 App Store Connect API 1.3 release notes
Update your server-side code to use new features, and test your code against API changes.
 - 📄 App Store Connect API 1.2 release notes
Update your server-side code to use new features, and test your code against API changes.
 - 📄 App Store Connect API 1.1 release notes
Update your server-side code to use new features, and test your code against API changes.
 - 📄 App Store Connect API 1.0 release notes
The initial version of the API.

See Also

Essentials

- 📄 Creating API Keys for App Store Connect API
Create API keys to sign JSON Web Tokens (JWTs) and authorize API requests.
- 📄 Generating Tokens for API Requests
Create JSON Web Tokens (JWTs) signed with your private key to authorize API requests.
- 📄 Revoking API Keys
Revoke unused, lost, or compromised private keys.
- 📄 Identifying Rate Limits
Recognize the rate limits that REST API responses provide and handle them in your code.
- 📄 Uploading Assets to App Store Connect
Upload screenshots, app previews, attachments for App Review, and routing app coverage files to App Store Connect.
