API Collection

# Bundle IDs

Manage the bundle IDs that uniquely identify your apps.

## Overview

The `bundleIds` resource represents the app's unique identifier that you can register, modify, and delete. You need a bundle ID before you can assign capabilities with the [Bundle ID Capabilities](#) resource or create a provisioning profile with the [Profiles](#) resource.

---

## Topics

### Registering Bundle IDs

#### Register a New Bundle ID

Register a new bundle ID for app development.

### Modifying and Removing Bundle IDs

#### Modify a Bundle ID

Update a specific bundle ID's name.

#### Delete a Bundle ID

### Getting Bundle ID Information

#### List Bundle IDs

Find and list bundle IDs that are registered to your team.

## Read Bundle ID Information

Get information about a specific bundle ID.

## Getting Related Data

### Read the App Information of a Bundle ID

#### List All Profiles for a Bundle ID

Get a list of all profiles for a specific bundle ID.

#### List All Capabilities for a Bundle ID

Get a list of all capabilities for a specific bundle ID.

GET /v1/bundleIds/{id}/relationships/app

GET /v1/bundleIds/{id}/relationships/bundleIdCapabilities

GET /v1/bundleIds/{id}/relationships/profiles

## Objects and Types

### object BundleId

The data structure that represents a Bundle IDs resource.

### type BundleIdPlatform

Strings that represent the operating system intended for the bundle.

### object BundleIdCreateRequest

The request body you use to create a Bundle ID.

### object BundleIdUpdateRequest

The request body you use to update a Bundle ID.

### object BundleIdResponse

A response that contains a single Bundle IDs resource.

### object BundleIdWithoutIncludesResponse

### object BundleIdsResponse

A response that contains a list of Bundle ID resources.

### object BundleIdAppLinkageResponse

```
object BundleIdBundleIdCapabilitiesLinkagesResponse
```

```
object BundleIdProfilesLinkagesResponse
```
