

[StoreKit](#) / [StoreDownloaderExtension](#)

Protocol

StoreDownloaderExtension

An app extension that uses the system implementation to schedule Apple-hosted asset-pack downloads automatically.

iOS 26.0+ | iPadOS 26.0+ | macOS 26.0+ | tvOS 26.0+ | visionOS 26.0+

```
protocol StoreDownloaderExtension : ManagedDownloaderExtension
```

Overview

You can optionally implement the inherited `ManagedDownloaderExtension` requirements, but don't implement any of the inherited `BADownloaderExtension` requirements for which this protocol provides a default implementation. For more information, see [Background Assets](#).
