Type Method

disambiguation(with:)

Creates an object whose resolution requires the user to select from among the specified objects.

iOS 10.0+ | iPadOS 10.0+ | Mac Catalyst 13.1+ | visionOS 1.0+ | watchOS 3.2+

```
class func disambiguation(with stringsToDisambiguate: [INSpeakable
String]) -> Self
```

Parameters

stringsToDisambiguate
An array of INSpeakableString objects for the user to choose from.

Return Value

A new INSpeakableStringResolutionResult object.

Discussion

Use this method to create a result object when there is more one value that might match the given parameter. The user is asked to select from among the objects you provide.
