Case

UISplitViewController.Column.inspector

The column for the inspector, or trailing, view controller.

iOS 26.0+ | iPadOS 26.0+ | Mac Catalyst 26.0+

```
case inspector
```

Overview

By default, the split view controller hides the `inspector` column. To show the `inspector` column, call show(_:).

See Also

Constants

```
case primary
```
The column for the primary view controller.

```
case supplementary
```
The column for the supplementary view controller.

```
case secondary
```
