Class

AccessoryTransportSession `Beta`

A class that manages a session between the extension and host process.

iOS 26.2+ `Beta` | iPadOS 26.2+ `Beta` | Mac Catalyst 26.2+ `Beta`

```
class AccessoryTransportSession
```

Topics

Handling a session request

`class` `Request`

    An incoming session request, which the extension can accept or reject.

Handling events

`protocol` `EventHandler`

    A protocol that defines methods for handling events for the session.

Canceling a session

`func` `cancel(error: AccessoryTransportSession.Error?)`

    Cancels the session.

`enum` `Error`

    A type that defines errors encountered when using an accessory transport session.

Describing a session

`var description: String`

A textual representation of this instance.

Relationships

Conforms To
