API Collection

Decompression Filtering

Filter data prior to decompression.

Topics

Filtering Data Prior to Decompressing

```
func vImagePNGDecompressionFilter(UnsafePointer<vImage_Buffer>!, vImage
PixelCount, vImagePixelCount, UInt32, UInt32, UInt32, vImage_Flags) ->
vImage_Error
```
Performs PNG decompression filtering.

Constants

≔ PNG Filter Types

Filtering algorithms to apply to image data before compressing the data.
