Instance Property

supportedLanguages

Languages that the model supports.

iOS 26.0+ | iPadOS 26.0+ | Mac Catalyst 26.0+ | macOS 26.0+ | visionOS 26.0+

```
final var supportedLanguages: Set<Locale.Language> { get }
```

Mentioned in

📄 Support languages and locales with Foundation Models

Discussion

To check if a given locale is considered supported by the model, use `supportsLocale(_:)`, which will also take into consideration language fallbacks.
