Type Property

supportedResources

Additional system resources that a continuous background task can request.

iOS 26.0+ | iPadOS 26.0+

```
class var supportedResources: BGContinuedProcessingTaskRequest.Resources { get }
```

Mentioned in

📄 Performing long-running tasks on iOS and iPadOS

Discussion

The BGContinuedProcessingTaskRequest.Resources enumeration indicates optional system resources that a specific BGContinuedProcessingTaskRequest instance can request through its requiredResources property.

Before requesting a resource, check this property to ensure that the device supports it.
