Enumeration

VerificationResult.VerificationError

Error cases for StoreKit JWS verification.

iOS 15.0+ | iPadOS 15.0+ | macOS 12.0+ | tvOS 15.0+ | visionOS 1.0+ | watchOS 8.0+

```
enum VerificationError
```

Topics

Error Codes

case `invalidCertificateChain`

An error indicating that the certificate chain is invalid.

case `invalidDeviceVerification`

An error that indicates the signed value wasn't generated for the current device.

case `invalidEncoding`

An error that indicates the signature, certificate chain, or other part of value uses invalid encoding.

case `invalidSignature`

An error that indicates that the signature didn't match the header and payload.

case `missingRequiredProperties`

An error that indicates the header or payload are missing information that's required to verify the signature.

case `revokedCertificate`

An error that indicates the certificate chain includes a revoked certificate.
