Core Location updates

Learn about important changes to Core Location.

Overview

Browse notable changes in Core Location.

June 2024

- Use `CLLocationUpdate` and `CLMonitor` without needing to explicitly request or verify authorization.

- Control and defer automated user authorization flows with `CLServiceSession`.

- Asynchronously stream diagnostic properties from `CLLocationUpdate` and `CLMonitor` `.Event` to understand why location updates and monitor events aren't arriving.
